Dr. Clark Riley will be talking on "60 years of Orchid Growing Mistakes (and how to fix them) I am sure there will be some great information of all of us. I know I have my own bucket of tags from my departed beauties.

**CALLING ALL YELLOW SHOW ROAD SIGNS...** we need to get them back so they can be reprinted, please look around to see if you have any you may have forgotten about.

Don't forget memberships run September 1<sup>st</sup> to August 31<sup>st</sup> each year. If you have not paid your membership for the year, please do so either at the next meeting or on line.

I want to again thank those of you who show up a bit early and help set up tables and chairs and also those of you who stay a bit after and help take everything down. I arrive around 9:30 and would love the company.

Thank you...

Hope to see you at the meeting.

### **THIS MONTH'S SPEAKER**

Clark Riley has been an active orchid grower since 1957. At the age of six, he got his first plant, a probably-collected Yellow Ladyslipper (*Cypripedium pubescens*) from a perennial nursery. The plant died a miserable death in a short time, but not before blooming and cementing a love of orchids that has lasted over half a century. He has labored ever since to make amends by promoting the sound cultivation of Ladyslippers. He grows a wide range of orchids, including several thousand terrestrials, hardy species, and ladyslippers, Brazilian *Laelias*, and specialty *Phalaenopsis*, often from seed. He was the producer for the book and CD of *Proceeding of the North American Native Terrestrial Orchid Conference*. He is a member of the Maryland Orchid Society and the American Orchid Society. He can be reached at [DrRiley@aol.com](mailto:DrRiley@aol.com) or visit his web site at <http://cyps.us>.

**If anyone has a program topic or specific speaker you would like to recommend be invited to present at one of our regular monthly meetings, please speak to Anita Walker.**
